JIAYU TANG

Gainesville, FL | jasper.tang859@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Computational + experimental antibody researcher developing an integrated approach across computational discovery, wet-lab validation, statistical interpretation, and clinical translation.

EDUCATION

2026 **M.S., Food Science and Technology; Minor in Statistics**
University of Nebraska–Lincoln | *GPA 3.95/4.00*

2024 **B.Sc., Food Science and Technology; B.Eng., Food Science and Engineering (Dual Degree)**
University of Nebraska–Lincoln / Northwest A&F University | *GPA 3.52/4.00*

RESEARCH EXPERIENCE

10/2026-Present **OPS Research Assistant**
Department of Infectious Diseases and Immunology, College of Veterinary Medicine, University of Florida

- **Investigate** how VH–VL frameworks shape predicted antibody–antigen recognition using in-silico grafting.
- **Run** large-scale AlphaFold2 antibody–antigen predictions and benchmark RFantibody and BindCraft2.

07/2024–07/2026 **Graduate Research Assistant**
Department of Food Science and Technology, University of Nebraska–Lincoln

- **Coordinated** a 12-week randomized crossover trial (IRB-approved; NCT06935435); ran 200+ clinic visits.
- **Co-developed** an NIH-style protocol and authored 4 SOPs; assisted a human biobank study; processed blood and stool samples, ran PCR, and analyzed data in R and Python.
- **Led** a PROSPERO-registered systematic review, screening 1,800+ records with ML-assisted tools.

04/2022–06/2023 **Undergraduate Research Assistant**
College of Food Science and Engineering, Northwest A&F University

- **Co-led** a proso millet fermentation thesis with three lactic acid bacteria; co-authored 2 papers.

SELECTED PUBLICATIONS & AWARDS

Published: Xiao J, et al. Foods. 2023;12(15):2964; Deng X, et al. J Sci Food Agric. 2023;103(9):4257–4267.

Awards: Chancellor's Graduate Research Grant Award; Excellence in the Department of Food Science and Technology; Mary and Charles C. Cooper/Emma I. Sharpless Fellowship; National Undergraduate Life Sciences Research Silver Prize

SKILLS

Computational Antibody Modeling: AlphaFold; de novo design (RFantibody, BindCraft2); AI coding agents (Claude Code, Codex)

Clinical Research: propose, design, and lead human clinical trials; grant proposal writing; protocol development and execution; IRB/GCP processes and review requirements

Wet Lab: PCR; human blood and stool sample processing; in vitro fermentation; spectrophotometric assays

Statistics & Languages: interpreting multivariate and multiple regression analyses; Mandarin (native), English (fluent)

LEADERSHIP

Graduate Representative (Secondary), UNL (2025–2026): Advocated for food science graduate students.

Graduate Student Advisory Board Member, UNL (2024–2025): Founded a peer-mentoring program.

Communications Lead, Northwest A&F University (2020–2022): Directed a 13-member newsletter and video team.
