JIAYU TANG

Gainesville, FL | jasper.tang859@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Computational + experimental antibody researcher developing an integrated approach across computational discovery, wet-lab validation, statistical interpretation, and clinical translation.

EDUCATION

2026 **M.S., Food Science and Technology; Minor in Statistics**
University of Nebraska–Lincoln

2024 **B.S., Food Science and Technology; B.Eng., Food Science and Engineering (Dual Degree)**
University of Nebraska–Lincoln / Northwest A&F University

RESEARCH EXPERIENCE

10/2026-Present **OPS Research Assistant**
Department of Infectious Diseases and Immunology, College of Veterinary Medicine, University of Florida

- **Investigating** how antibody frameworks shape antigen-binding prediction; built an in-silico grafting pipeline.
- **Running** large-scale AlphaFold/ColabFold antibody–antigen predictions and benchmarking Germinal and RFantibody.

07/2024–07/2026 **Graduate Research Assistant**
Department of Food Science and Technology, University of Nebraska–Lincoln

- **Coordinated** a 12-week randomized crossover trial (IRB-approved, ClinicalTrials.gov-registered) and a human biobank study; led 200+ clinic visits.
- **Co-developed** an NIH-style protocol and authored 4 SOPs; processed blood and stool samples, ran PCR, and analyzed data in Python and R.
- **Led** a PICOS-based systematic review of 1,800+ references with AI/ML-assisted, human-validated screening.

04/2022–06/2023 **Undergraduate Research Assistant**
College of Food Science and Engineering, Northwest A&F University

- **Ran** lactic acid bacteria fermentation and spectrophotometric assays on proso millet; co-authored 2 papers.

SELECTED PUBLICATIONS & AWARDS

Published: Xiao J, et al. Foods. 2023;12(15):2964; Deng X, et al. J Sci Food Agric. 2023;103(9):4257–4267.

Awards: The Chancellor's Graduate Research Grant Award; Excellence in the Department of Food Science and Technology; Mary and Charles C. Cooper/Emma I. Sharpless Fellowship; National Undergraduate Life Sciences Research Silver Prize

SKILLS

Computational Biology: use AI agents (Claude Code, Codex) for antibody design and microbiome analysis

Clinical Research: propose, design, and lead human clinical trials; grant proposal writing; protocol development and execution; IRB/GCP processes and review requirements

Wet Lab: blood and stool sample processing, PCR, in vitro fermentation, spectrophotometric assays

Statistics & Languages: interpreting multivariate and multiple regression analyses; Mandarin (native), English (fluent)

LEADERSHIP

Graduate Representative, Graduate Student Assembly, UNL (2025–2026): Represented FDST graduate students.

Advisory Board Member, Food Science & Technology, UNL (2024–2025): Launched a peer-mentoring program.

Communications Lead, Northwest A&F University (2020–2022): Led a 13-person weekly newsletter and video team.
