JIAYU TANG

Gainesville, FL | jasper.tang859@gmail.com | LinkedIn | Personal Website

PROFESSIONAL SUMMARY

Computational + experimental antibody researcher developing an integrated approach across computational discovery, wet-lab validation, statistical interpretation, and clinical translation.

EDUCATION

M.S., Food Science and Technology; Minor in Statistics **2024–2026**
University of Nebraska–Lincoln, Lincoln, NE
Awards: Chancellor's Graduate Research Grant Award; Excellence in the Department of Food Science; Mary and Charles C. Cooper/Emma I. Sharpless Fellowship; Graduate Research Assistantship

Dual Bachelor's Degree Program **2020–2024**
B.Sc., Food Science and Technology *University of Nebraska–Lincoln, Lincoln, NE*
B.Eng., Food Science and Engineering *Northwest A&F University, China*
Awards: National Undergraduate Life Sciences Research Competition, Silver Prize; Undergrad Merit Scholarship

RESEARCH EXPERIENCE

OPS Research Assistant **10/2026–Present**
Department of Infectious Diseases and Immunology, University of Florida, Gainesville, FL
- Investigate how human VH–VL framework architecture influences predicted antibody–antigen recognition.
- Develop in-silico antibody design pipelines and run AlphaFold2 antibody–antigen predictions.
- Benchmark RFantibody and BindCraft2; build and audit workflows with coding agents (Claude Code, Codex).

Graduate Research Assistant **07/2024–07/2026**
Department of Food Science and Technology, University of Nebraska–Lincoln, Lincoln, NE
- Coordinated a 12-week randomized crossover clinical trial (NCT06935435); assisted a biobank study.
- Co-developed trial protocol and consent form; authored 4 SOPs; ran 200+ clinic visits; collected, processed, and analyzed samples and data.
- Led a systematic review (PROSPERO CRD420261350487): used ML tools to screen 1,800+ records; LLM-assisted data extraction with human verification.

Undergraduate Research Assistant **04/2022–06/2023**
College of Food Science and Engineering, Northwest A&F University, China
- Co-led a project on improving phenolics and antioxidants of millet through fermentation.
- Ran phenolic and DPPH/ABTS antioxidant assays; co-authored 2 papers.

PUBLICATIONS & CERTIFICATES

Published: Xiao J, et al. Foods. 2023;12(15):2964; Deng X, et al. J Sci Food Agric. 2023;103(9):4257–4267.
Certificates (CITI Program): GCP for Clinical Trials with Investigational Drugs and Biologics; Biomedical Responsible Conduct of Research; Biomedical Investigators and Key Personnel; Conflicts of Interest

WORK AND LEADERSHIP EXPERIENCE

Mentor & Co-supervisor *University of Nebraska–Lincoln* **2023–2026**
- Mentored 3 students, co-supervised 1 student with PI.

Graduate Representative *University of Nebraska–Lincoln* **2024–2026**
- Organized 3 professional development workshops; advocated for food science graduate students.

Graduate Student Advisory Board Member *University of Nebraska–Lincoln* **2024–2025**
- Founded a peer-mentoring program pairing new graduate students with mentors.

Teaching Assistant (Internship) *Xi'an New Oriental Education & Technology Group* **2022–2023**
- Coached students in IELTS exam preparation.

Communications Lead *Northwest A&F University* **2020–2022**
- Directed a 13-member team producing weekly newsletters and videos.

SKILLS

Computational: AlphaFold2, RFantibody, BindCraft2; AI coding agents (Claude Code, Codex)
Clinical Research: trial design and coordination, IRB/GCP compliance, grant writing
Wet Lab: PCR, human blood and stool processing, in vitro fermentation, spectrophotometric assays
Statistics & Languages: multivariate and regression interpretation; Mandarin (native), English (fluent)
